- ✓ 53 fiat currencies through multiple on-ramp engines for users to choose during their fiat-to-crypto journey.
- ✓ Real-time cryptocurrency data, prices, and charts.
- ✓ Rewards via crypto staking
- ✓ Easy-to-use platform
- ✓ 24/7 customer support

Why LYOTRADE?

Choosing LYOTRADE gives you access to the LYO Credit (LYO) token and opens you to the world of opportunities offered by the LYO Ecosystem.

- **Trading:** Spot, Market, Margin, Futures, Grid.
- **Staking:** Access to staking pools and the ability to choose various locking periods for annualized returns.
- **Crypto Loan:** Instant loans in USDT using cryptocurrency or tokens as collateral.
- **Buy and Sell with Card and Wire Transfers:** Simple buy and sell of cryptocurrencies with card or via SEPA/SWIFT transfer.
- **ETF:** Enables portfolio diversification through access to our range of ETFs.
- **Buy with PIX:** LYOTRADE's PIX on-ramp allows Brazilian users to easily purchase cryptocurrency with their fiat currency.
- **Saving Account:** Ability to earn interest on their **BTC**, **ETH**, and **USDT** holdings **without a lock-in period**.
- **Social Trading:** Ability to allocate a portion of one's investments to replicate the trading activities of other traders.

Why LYOTRADE?

- **Ability to choose from a variety of services available.** LYOTRADE can serve as a one-stop shop for everything one needs to navigate and explore the cryptocurrency landscape. With its wide range of services, LYOTRADE gives users the ability to make the most of opportunities in crypto and beyond.
- **Security and reliability of a centralized exchange.** As a centralized exchange, LYOTRADE gives users peace of mind with its comprehensive security protocols and extensive customer support.
- **Easily-manageable for both newbies and professionals.** With its intuitively designed user interface and trading view options, LYOTRADE makes navigating and utilizing various trading functionalities easy for new and experienced users alike.

Our Providers

- Monitoring all direct and indirect transactions on the blockchain, with the ability to navigate through multiple hops.
- Ability to detect any criminal activities on the blockchain; flagging the severity level and providing alerts.

- Complete identity verification
- Sanction and **PEP** screening
- Continuous monitoring

- Management of individual user profiles and the screening for the potential risks associated with money laundering, fraud, tax evasion, and other financial crime.

Services:

LYOTRADE Wallet

- Crypto-to-crypto swap
- Multi-asset compatibility
- Convenient exchange rate and transaction fees
- Decentralized and secured storage
- Items are stored on a blockchain-based system
- Fraud and scams prevention.

Trading

- Pool buy sell swap
- P2P buy sell swap
- Spot trading
- Marginal trading
- Leverage
- Futures
- ETF

LYO Credit (LYO) Token

- LYO Credit (LYO) is the **utility token** of the LYOPAY Ecosystem. Use LYO for purchasing paying transaction fees, staking, and more.
- LYO's smart contract security qualifications got a 98% rating from **Zokyo**.
- LYO Credit (LYO) is based on the **BNB Chain**. The BEP-20 smart contract allows transactions in the ecosystem and records balances in its wallets.
- Features on [CoinMarketCap](#), [CoinGecko](#), [Binance](#), [Coinbase](#) and [Crypto.com](#).

Margin Trading

Opening a margin account on the LYOTRADE platform allows users to engage in more advanced margin trading strategies involving **collateral** and **leverage**.

Margin trading gives access to larger amounts of crypto as capital for investments for a borrowing fee.

Futures

Futures contracts trading allows two parties to form a contract where both parties agree to buy and sell a particular asset of a specific quantity at a **predetermined price**, at a **specified date** in the future.

Peer-to-Peer (P2P)

- Peer-to-Peer or P2P trading allows for the buying and selling of cryptocurrencies **directly between users**, without the involvement of a third-party or intermediary.
- This kind of trading provides higher control over important transaction variables such as with whom a user is transacting, the price at which a transaction settles, and when the transaction settles.

Swap DEX

A decentralized solution, this is a fast, secure, and anonymous service that allows anyone to exchange BTC for ETH, and other cryptocurrencies of different chains.

ETF Trading

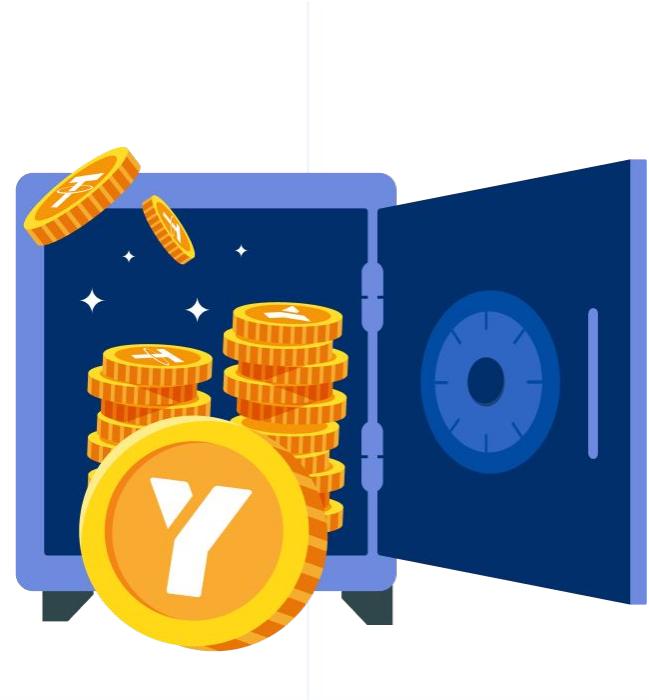

An ETF, or exchange-traded fund, is a financial tool that follows the trend of a market or a group of markets.

With this, market participants can buy **baskets of stocks** containing shares of hundreds or thousands of companies with a single purchase.

Staking

- Access to several staking pools and options for various locking periods with equivalent annualized returns.
- Staking **USDT** and **LYO** allow users to earn as much as **36% per year**.
- Additionally, staking helps in validating the transactions that take place and helps boost the network's security and efficiency.

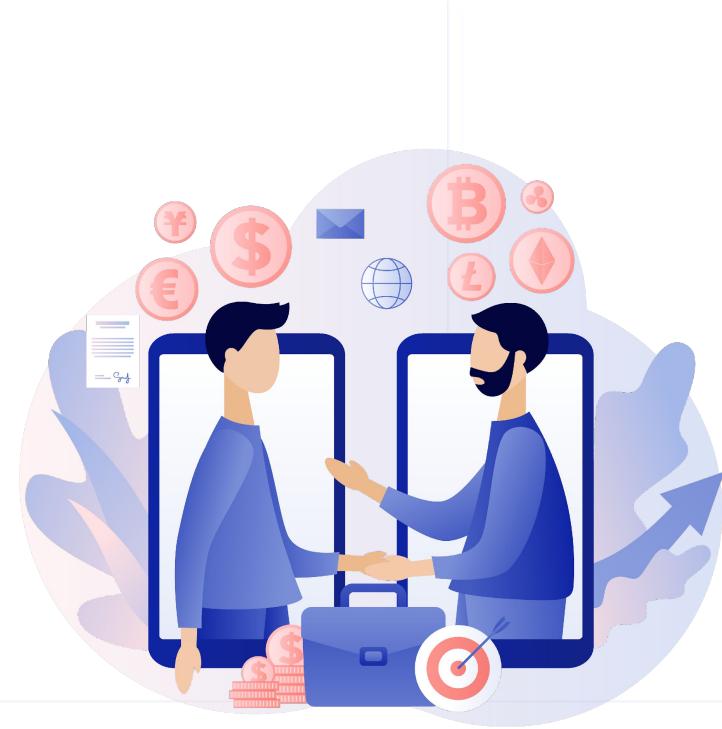

Crypto Loan

Borrow LYOTRADE crypto to receive stable coins in **USDT**, **USDC**, or **BUSD**.

- Request the loan
- Enter your wallet address
- Receive your USDT loan in 10 minutes
- No KYC, no credit check
- More than 60 collateral options available

Users receive earnings from the increase in the price of the initial collateral.

In the event that the price falls, they will be paid out at a fixed price, announced in user request.

Pix Payment for Brazil Residents

Pix is a payment system developed by the Central Bank of Brazil that **enables transactions** to occur **in less than 10 seconds, 24/7**, including **holidays**.

Our **pioneering partnership** with Pix enables users to use Pix's payment railways directly in the LYOTRADE app.

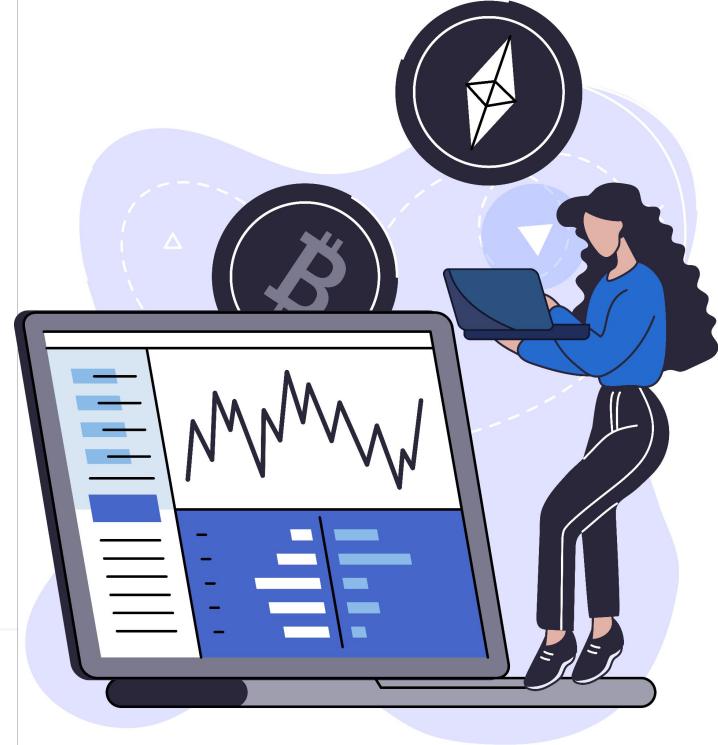

Saving Account

- LYOTRADE's Savings feature offers users the ability to earn interest on their **BTC**, **ETH**, and **USDT** holdings **without a lock-in period**.
- Similar to staking, users can earn rewards on their savings while being able to withdraw their crypto anytime.
- Additionally, users can view the rewards on a daily, weekly, monthly, or yearly basis before subscribing, using the **[Interest Calculator]** feature.

Social Trading

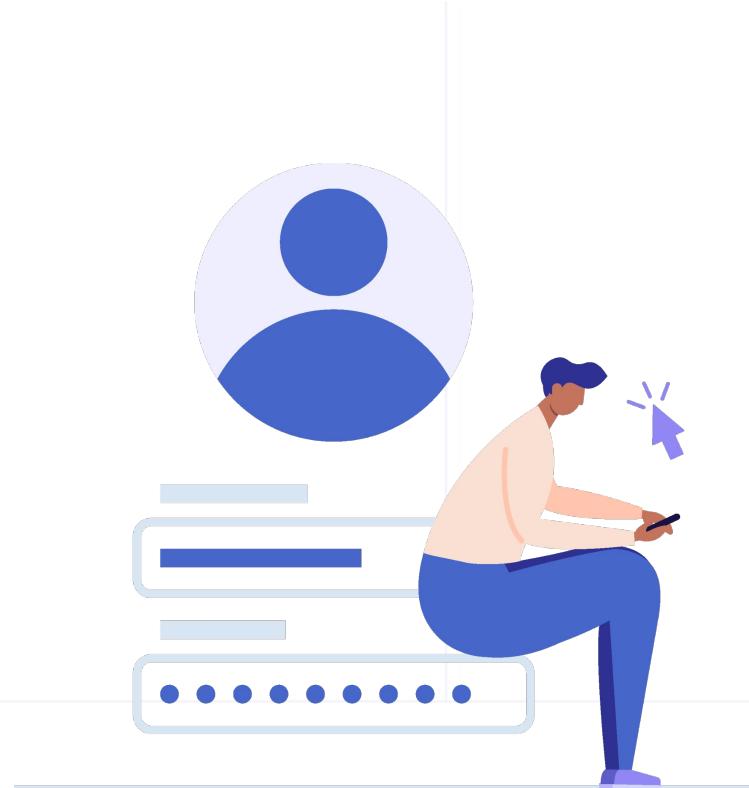

- Users can allocate a portion of their investments to **replicate the trades** of other traders.
- A list of traders is provided, showing their profit percentages and earnings over a defined period (e.g., past 2 weeks).
- Users must independently screen and select the traders they wish to copy based on the displayed statistics.
- There are no charges for using this feature.
- A portion of the profits generated by the user are given to the trader being followed.
- The maximum leverage available for trading is 10x.

Sub-accounts

Business owners can create multiple sub-accounts for more organized, efficient, and secure transactions. Sub-accounts can be utilized by firms that manage trading teams employing multiple trading strategies.

To enable greater control, sub-accounts can be modified through the main account to feature various functionalities relevant to their unique trading strategies.

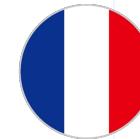

Multilingual Knowledge Base

LYOTRADE offers a growing and comprehensive **online knowledge base** that seeks to provide users with the information they need to easily explore and navigate the LYOTRADE platform and its functionalities.

Our library is available in different languages to make learning about the platform not only easier but also more effective for our global user base.
